Skills

- **Languages** : Python, Java, JavaScript, HTML, CSS
- **Frameworks & Libraries** : Django, Flask, Bootstrap, jQuery, NumPy, Pandas
- **Developer Tools** : Git, GitHub, Docker, VS Code.
- **Core Computer Science** : Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, Statistics
- **Soft Skills** : Leadership, Adaptability, Communication, Discipline

Projects

- **YumYum – Online Food Delivery Web Application |** Present '26
  - Designed and developed a **web-based food delivery platform** that enables users to browse restaurants, explore menus, and place food orders online.
  - Built a **responsive and user-friendly front-end** using HTML, CSS, and JavaScript for seamless interaction across devices.
  - Implemented backend functionality using **Django**, including user authentication, order management, and database integration.
  - Developed features such as **restaurant listing, menu display, shopping cart, and order processing** to improve user experience.
  - **Tech**: HTML | CSS | JavaScript | Django
- **Math Fun 4 Kids – Interactive Math Learning Web Application | GitHub** Aug `25
  - Developed an **interactive web application** designed to help children learn basic mathematics through engaging activities.
  - Implemented modules for addition, subtraction, multiplication**, and number sorting** with dynamic question generation.
  - Applied **basic Data Structures and Algorithms concepts** to build efficient problem-generation logic.
  - Designed a **responsive and intuitive interface** with instant feedback to enhance the learning experience on desktop and mobile devices.
  - **Tech**: HTML | CSS | JavaScript | DSA Concepts.
- **Personal Expense Tracker – Web-Based Finance Management Tool | GitHub** Jul `25
  - Built a **personal finance management web application** to track and manage daily expenses efficiently.
  - Developed a **responsive UI using HTML, CSS, JavaScript, jQuery, and Bootstrap 5** for smooth performance across devices.
  - Implemented features to **add, filter, view, and delete expense records** for effective financial tracking.
  - Integrated **LocalStorage-based persistent data storage** and dynamic expense summaries for better spending insights.
  - **Tech**: HTML | CSS | JavaScript | jQuery | Bootstrap 5 | LocalStorage.

Training

- **1Stop.AI – EdTech & Training Solutions Company** Jul `25
  - Developed **responsive UI components** using HTML, CSS, JavaScript, jQuery, and Bootstrap 5.
  - Designed **cross-device compatible web pages** optimized for mobile, tablet, and desktop screens.
  - Debugged UI issues and optimized layouts to enhance **user experience and responsiveness**.
  - Implemented **client-side storage and dynamic features using jQuery and LocalStorage**.

Certificate

- Web Development (Frontend) | 1Stop.AI — July `25
- Course Completion Certificates from Neo Colab for C++, DSA with C++ and Java — May `25
- The Complete Python Developer | Udemy — Mar `24

Achievements

- Solved **200+ coding problems on LeetCode**. — Since `25 – Present
- Solved **200+ problems on GeeksforGeeks** focusing on Data Structures and Algorithms. — Since `25 – Present
- Built and deployed **5+ real-world web development projects**. — Since `24 – Present

Education

- **Lovely Professional University** — Jalandhar, Punjab
  Bachelor of Technology – CSE – AI & ML; CGPA: 7.2 — *Since `23 - Present*
- **Narayana Junior College** — Hyderabad, TS
  Higher Secondary Education; ***Percentage: 92.9%*** — *Apr `22 – Mar `23*
- **Narayana Group of Schools** — Kurnool, AP
  Secondary Education; ***Percentage: 99%*** — *Apr `20 – Mar `21*
